

New Logo and Brochures

You may have noticed something different with the colour and branding of our logo recently. In partnership with Quartz the new - and stronger - colours are being launched across all platforms, including social media and website. We are embracing our British pedigree and heritage by proudly displaying a new logo with all of our products designed and made in the UK Download a digital copy of our new brochure today!

Guten Tag from Chillventa

We brought our newly branded brochures and products to Germany last month for the biannual Chillventa Exhibition, showcasing what is new in CO2, Waste Cooling, Marine and Offshore, and Food and Beverage Cooling. After a very busy 3 days at the exhibition, our team met new and existing suppliers and distributors from around the world. If you missed us you can still get in contact with our sales team through phone and e-mail.
